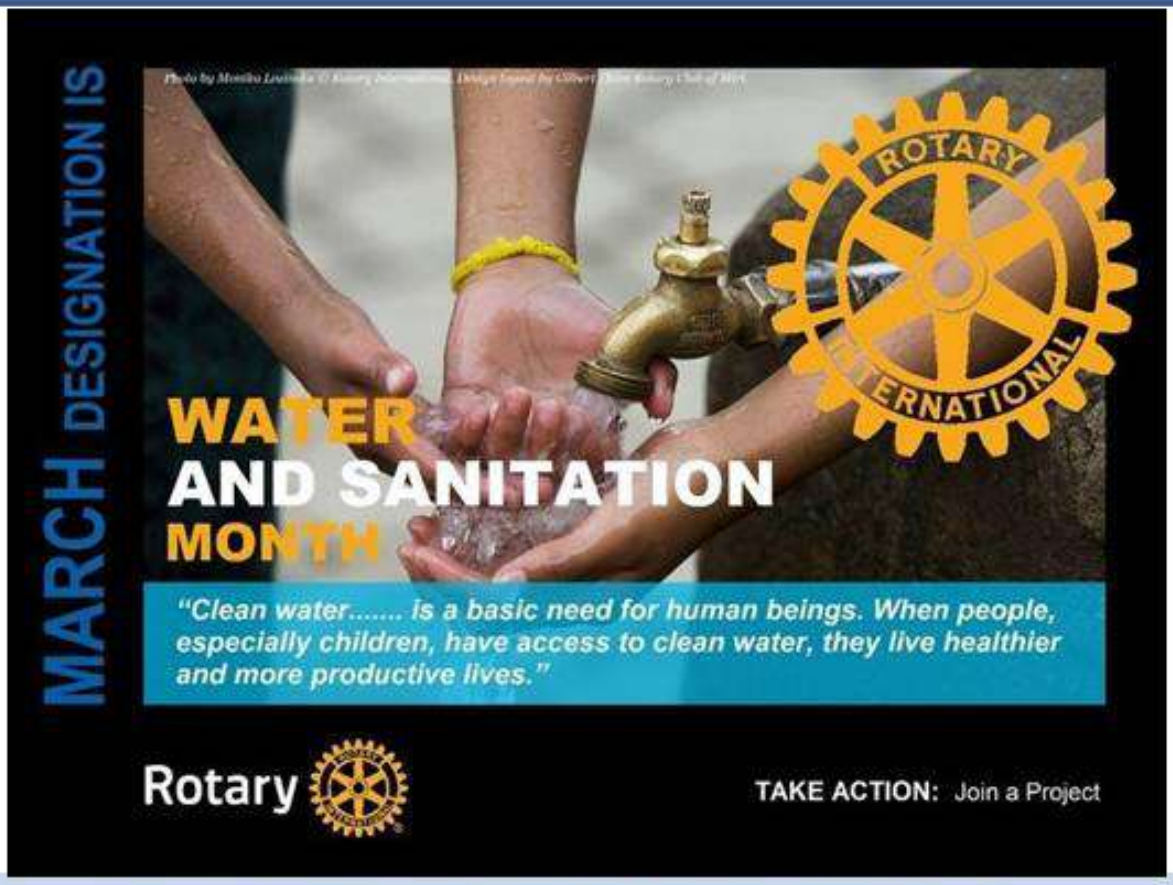
E-Circular 35 MEETING EVERY THURSDAY FOR THE WEEK 1st MARCH TO 7th MARCH 2021



March: WATER AND SANITATION Month

Clean water is a basic need for human beings. When people, especially children, have access to clean water, they live healthier and more productive lives. However, at least 3,000 children die each day from diseases caused by unsafe water, which is what motivates our members to build wells, install rainwater harvesting systems, and teach community members how to maintain new infrastructure.

The Rotary theme for March, **Water and Sanitation**, asks us to focus on the life changing improvements that we can make through these international projects to provide a more readily available and healthy supply of water to all people.

The problem is the unequal distribution of water and the lack of universal proper sanitary practices to assure safe water for drinking. Water and sanitation issues will certainly continue to be an area of focus for RI and deserving of our attention as Rotarians.
